

## TECHNICAL DATA SHEET

### AUTOPSY TABLE WITH ADJUSTABLE HEIGHT AND DISSECTION Ref. 3800 (Autopsy) with Options Weighing balance et Graduated scale

**Autopsy Table:** made of stainless steel with a smooth plate without holes on its surface for easy work and cleaning.

- A work surface supporting the body, in 316L stainless steel 20/10° thick,
- includes 4 body supports,
- A foot of width 72cm and length 142cm, with an inspection hatch,
- A peripheral suction system, in lateral position on 200cm on each side (required flow 400m<sup>3</sup>/h).

**Adjustable height:** 2 jacks allowing an adjustment in height of the table (min. 73cm max. 103cm) via a wire control. This lifting system gives the table perfect stability and allows the positioning of all types of bodies.

#### Included:

- Set of 3 Body supports: Manufactured in 304 L stainless steel and make possible to get the body in a correct position (for the head use Headrest Ref.910230) - Delivered by sets of 3, Weight 3 kg.
- 1 sink 40 x 40 x 20cm (top)
- 1 hot water / cold water mixer with elbow control,
- 1 cold water shower with 3m long hose,
- 1 permanent rinse with flow adjustable valve,
- 1 overflow, a drain and a siphon,
- 1 electrical socket 230V/50Hz/16A (connection to any device) protection IP55
- Adjustable height from 73 to 103cm.

#### Options:

- Table scale for body measurement **Ref. 3800/G.**
- Dissection table size 80 x 60cm (L x W) **Ref. 3111**
- **Weighing balance: Réf 3800/P** Allows body weighing, Electronic control box, 4 sensors
  - increased from 0 to 400 kg with an accuracy of 5 g,
  - with simple weighing function
  - 6-digit LCD display with 19 mm black light,
  - 6-key touch-sensitive keyboard,

- **Sink:** in stainless steel, in 304L stainless steel, dimension 20 x 40 x 40 x 40 cm (H x W x L) height limited by shredder below included:

A drain + removable basket with tank and particle filter with adjustable opening,

- **Packing:** individual, on a pallet with carton protection.

- **Capacity load:** 300 Kg.

- **Cleaning:** water and soap and all chemical products compatible with stainless steel 304.

- **Dimensions :** L 290cm x W 80 cm (Standard)  
Adjustable height: from 73 to 103 cm.

- **Product benefits:**

- Autopsy table designed to facilitate the operator's work, simple to use, and easy to maintain,
- The suction is done on the periphery of the table, facilitating suction and cleaning, giving it a very great advantage over the traditional system of the perforated table top,
- Robust due to its all-stainless-steel design, rigid and very stable in operation (very balanced),
- Adjustable permanent rinse, and hand shower with 4-meter hose, allowing access to the entire tray,
- Made of all stainless-steel material for strength and durability,
- DELABIE French brand faucets, and waterproof electrical outlet,
- The 3 body supports allow the body to be raised without contact with the stainless-steel plate.

- **Available with illuminated blower plenum:** in order to achieve a falling laminar air flow and protect the operator during the autopsy. Led Panels for illuminated field.
